Do you support or oppose the proposal to close down the democratically elected regional councils. Under this proposal most of the responsibilities held by the regional councils, concerning financial matters and general administration of the health sector, will be transferred to a government agency, what remains will be transferred to municipalities. Supporters of the proposal say it is being done to save money and improve government efficiency and coordination. Opponents say it is an undemocratic power grab that further limits people's ability to participate in government.
